

# JAKRAPAT WONGPRADU

**Address:** Sathorn, Bangkok  
**Phone:** (+66) 83-014-5341  
**Email:** jakrapatwpd@gmail.com  
**GitHub:** [github.com/danjkw](https://github.com/danjkw)  
**Linkedin:** [linkedin.com/in/jakrapat-wongpradu-a4b14b330/](https://linkedin.com/in/jakrapat-wongpradu-a4b14b330/)

## SUMMARY

Cybersecurity-focused Computer Science student with hands-on experience in network analysis, system security, and practical security projects. Demonstrates strong problem-solving skills and understanding of real-world security concepts. Seeking an opportunity to apply technical knowledge in cybersecurity and contribute to protecting systems and data.

## EDUCATION

### Assumption College

Jan 2010 - Jan 2022

- Science - Digital & Technology

### Thammasat University - Sirindhorn International Institute of Technology (SIIT)

Aug 2022 - Present

- Bachelor of Engineering in Digital Engineering (International Program)

## PROJECTS

### End-to-End Network Exploitation & Post-Exploitation Lab

- Conducted network scanning and enumeration using Nmap to identify vulnerable hosts and services
- Exploited CVE-2017-0144 vulnerability via Metasploit Framework with DoublePulsar backdoor.
- Established remote access using Meterpreter reverse TCP payload and performed post-exploitation.
- Carried out system enumeration and basic privilege escalation techniques
- Documented attack workflow and identified mitigation strategies

### Web Application Penetration Testing (DVWA Lab)

- Performed web application security testing using Burp Suite and DVWA
- Identified and exploited SQL Injection vulnerabilities to access backend data
- Intercepted and modified HTTP requests to analyze application behavior and security flaws

### Digital Forensics & Incident Investigation

- Conducted memory analysis using Volatility to identify suspicious processes and artifacts
- Performed disk forensics using Autopsy to recover and analyze system data
- Investigated system activity to reconstruct potential security incidents
- Correlated evidence from multiple sources and documented findings in a structured report

## SKILLS

**Security Tools:** Wireshark, Autopsy, Volatility, Metasploit Framework, Burp Suite, Kali Linux, Nmap, Hashcat, DVWA, Microsoft Sentinel (Azure), CWF, Trellix EDR/XDR, Palo Alto, Arbor

**Penetration Testing & Security Labs:** CVE-2017-0144 (EternalBlue) Demonstration, SQL Injection Testing, Vulnerability Assessment, Exploit Validation, Reverse TCP Meterpreter Payloads

**Forensics:** Network Traffic Analysis, Memory Dump Investigation, Disk Forensics, Incident Investigation

**Programming & Scripting:** Python, SQL, Java, JavaScript, TypeScript, PHP

**Developer Tools:** Git, GitHub, VS Code, Google Colab, MAMP/XAMPP, WinSCP, FileZilla

**Business Tools:** Microsoft Office, Google Sheets, Slack, Trello, Figma

**Languages:** English (TU-GET 590, IELTS 6.0)

## EXPERIENCE AND ACTIVITIES

### Cybersecurity Analyst Internship at Cybertron

June 2025 - Aug 2025

- Hands-on experience with enterprise security tools: Splunk, Trellix, Arbor, Palo Alto, WAF, and CWF.
- Monitored and responded to security incidents, performing log analysis and escalation.
- Analyzed threats and prepared reports with actionable insights for customers.
- Communicated directly with clients during security engagements and incident handling.
- Worked 12-hour day shifts as part of the SOC team, gaining real operational experience.
